A. General part (*applies to compulsory and elective courses*)

1. Course objectives

The aim of the course is to acquire knowledge in treatment of urological diseases. Student learns about aetiology, clinical presentation, diagnostics and treatment of common urological diseases.

2. Comprehensive outline of the course organisation

There are 9 clinical cases, which are given to the student as clinical presentation. After self-study at home, student presents diagnosis, differential diagnosis, diagnostics and treatment of the disease. Theoretical knowledge is complemented with practical examples in the operating room and invasive diagnostic sites.

3. Description of on-going assessment of knowledge and skills

Assessment is oral during the course, when clinical case is discussed. To pass student has to show appropriate knowledge of at least three clinical categories from the following list: aetiology, clinical presentation, differential diagnosis, diagnostics and treatment. For each category 1 point is given (5 points per clinical case)

4. Required conditions for the final examination (Course Exam)

/

5. Final assessment and examination of knowledge and skills (Course Exam)

Result of final exam consists of partial results of oral assessments during the course (45 points) and assessment of the seminar (15 points). The total result of the course is maximally 60 points. Final grade is calculated from total point number: 0-30 points fail, 31-37 points satisfactory, 38-45 points good, 46-52 points very good, 53-60 points excellent.

6. Other provisions

The topic of the seminar is determined by the student and the lecturer, who also suggests references for seminar data. The seminar should be submitted until the last (9th) oral assessment. Student should send the seminar via email. The seminar is assessed by two categories: content and originality (10 points) and references used (5 points). The language of the seminar for ERASMUS students is English. Grammar and language are not assessed for ERASMUS students.
